

For Immediate Release:

## Lee Thrasher (COMMANDassurance sales – Command Alkon) joins the podcast for Episode 22.

Sparks, MD – August 17, 2021 - For episode 22 the Add10 Gallons Concrete Podcast welcomes Lee Thrasher to the program. Lee is a member of the very first Construction Industrial Management (CIM) program class at Middle Tennessee State University. A program that podcast hosts Paul and Joey also completed. Lee talks about the humble beginnings of the CIM program and how it led him to begin his career in the concrete industry.

Speaking from his COMMANDassurance role with Command Alkon, Lee gives the Add 10 Guys a great perspective of what the technology can do for concrete producers. Additionally, he provides insight into the technological advancement possibilities for the industry.

You can download episode 22 of the Add 10 Gallons Concrete Podcast wherever you get your podcasts, and search “add 10 pod” on Instagram, Facebook, and YouTube for more great content.

The show hosts are all part of the Active Minerals International (AMI) technical development team dedicated to the concrete industry. AMI produces Acti-Gel® 208 purified magnesium aluminosilicate, a high performance mix stabilizer, and rheology modifier used in a wide variety of cement-based applications.
